## SAY PINKHAM SHOULD PASS ON PATRONAGE

Influential Democrats Will Urge No Federal Appointments Till Governor Comes

INDORSEMENTS NOW MADE ARE DECLARED IMPOSSIBLE

Choice of Committees and National Committeeman Strongly Objected To

Alarmed at indorsements for office in Hawaii made by National Committeeman John H. Wilson, the Democratic territorial central committee and other organizations identified with the "McCandless faction," leading Democrats are at work on a plan to block all nominations for federal offices in the territory until L. E. Pinkham, after confirmation as governor, has had time to come here and look the situation over.

These Democrats, including the party members who were in the last legislature and who have recently come forward in support of Pinkham's nomination are now planning to unite in a cablegram to Washington, as soon as Mr. Pinkham is confirmed, urging that all federal appointments be held up for a month or two, or at least until the new governor can get a personal line on the local candidates. The judicial situation is one that has aroused something bordering on revolt among several influential bourgeois.

The Maui county Democratic committee not long ago indorsed Attorney N. W. A. of Honolulu for appointment to the circuit bench. Several vacancies are pending on the circuit bench, among them those of Judge W. L. Whitney, Judge H. E. Cooper, who has resigned, and Judge Selden B. Kingsbury of Maui. Attorney W. B. Edging of Honolulu is a Democrat who has strong support for the circuit bench, but his wish is to secure the position on the Maui circuit.

Chairman Pacheco of the Democratic territorial central committee, disquieted with Judge Edging's arrangement whereby Attorney A. H. would be indorsed and worked for by the committee for the Maui judgeship, while Edging should be put forward for one of the Oahu places. Judge Edging, said Pacheco this morning, declined to agree to that plan, as he much prefers the Maui position.

No criticism is directed against Judge Edging, but several Democrats say they will not stand for A. H.'s appointment to the bench, claiming that he has not the experience nor the ability for the position. This is one cause of the movement now on foot.

Another objectionable indorsement is that of Harry C. Moenman of Waikiki for United States marshal. Several Maui Democrats are stated to be violently opposed to his appointment.

One of the Democratic factions has been urging the appointment of C. D. Pringle for the collectorship of internal revenue, and this also has aroused wide protest.

Several other indorsements have angered a number of Democrats who are prepared to make a fight against the candidates, and they declare that the new governor should be allowed to look over the field and say whether or not he is willing for his administration is in favor of the man brought forward.

## TWO COMPANIES OF COAST ARTILLERY NOW AT FORT DE RUSSY

The 55th company of coast artillery, has been transferred from Fort Ruger to Fort De Russy, the change of station being made last Saturday.

Capt. C. W. Waller, whose promotion was recently confirmed by the senate, is in command. Captain Waller is well known in Honolulu, having come here a year and a half ago to prove the mortar carriages at Fort Ruger, when an officer of the ordnance department. He returned to Honolulu last spring, and when his detail in the ordnance expired, returned to the line with rank of 1st lieutenant, and station at Fort Kaneohe. Recent transfers in the coast defenses of Oahu have put him in command of the 55th, and the transfer in station of that company brings him back to Fort De Russy.

## ABUNDANT RAINFALL ON THE BIG ISLAND

A. W. Carter, manager of the Parker Ranch, received a wireless this morning reporting heavy rains on Hawaii. In the upper Hamakua section there has been a fall of from 1 1/2 to 5 1/2 inches. It was raining heavily in the Kohala mountains. All this means full ditches for the sugar plantations, as well as green pastures for stock.

## NO CHANCE FOR PINKHAM DEFEAT, SAYS OBSERVER

Senators Understand Well That Wilson's Nominee Is To Be Confirmed Soon

VARDAMAN ALONE STOOD AGAINST IN COMMITTEE

John Sharp Williams Urged Party Reasons for Opposition, but in Vain

By C. S. ALBERT.

(Special Star-Bulletin Correspondence) WASHINGTON, D. C., Oct. 23.—The long fight against a favorable report on the nomination of L. E. Pinkham, to be governor of Hawaii, came to a sudden and unexpected end so far as the committee on Pacific Islands and Porto Rico was concerned. The hold-up just seemed to melt away and action was taken with little dissent.

It was considered impossible to secure a quorum of the committee until later in the session, but all prospects were disappointed and a majority of the members showed up at 11:30 one morning. A telephone message was instantly sent for Senator Williams, who demanded a hearing against the appointment. He responded and made a brief speech, outlining his objections. These were chiefly based on the allegation that Mr. Pinkham is not a Democrat but a Republican, and should not be given the office. The argument had no perceptible effect. Vardaman Alone Opposed.

A vote on the matter of a favorable report followed the hearing given Senator Williams. Final opposition was limited to Senator Vardaman, who insisted to the last that he would never vote for any man accused of being a Republican.

No formal notice of continued opposition was given the committee by Mr. Williams, but he later announced that he would carry the fight to the floor of the senate. The friends of Mr. Pinkham were not disturbed by the statement, because they fully realized that nothing but a few additional days of delay would follow. They understood that when a fitting opportunity arrived, the nomination of Mr. Pinkham would be confirmed and but few votes would be recorded against him in the senate.

Early action by the committee came as a distinct surprise. It had been expected that absenteeism would prevent the assembling of a quorum until the new banking and currency bill was brought up for debate. Senator Sharoth was responsible for the speedy termination of the hold-up. He made personal appeals to all members of his committee, informing them that President Wilson desired the early confirmation of Mr. Pinkham. This appeal resulted in the attendance of a quorum long before such an achievement could have been otherwise accomplished.

## BOARD DENIES LIQUOR LICENSE TO 2 JAPANESE

Standing firm on its announced policy of granting no more wholesale liquor licenses for the section of Oahu that includes the city proper, the Oahu liquor license commission today denied the applications of T. Usui & Co. and S. Ichiyama for wholesale licenses.

This decision was arrived at following a lengthy rehearing of the two applications, both of which have been previously denied. After listening to arguments at length, the commissioners went into an executive session that lasted for almost an hour. At the end of that time the decision was announced. The case has been the subject of much comment in the Japanese press.

The application of Clifford Kimball for the Lellehua beer-garden license was postponed for 10 days.

Charles Lambert of the Anchor saloon was cited to appear at the next meeting of the board, which will be in 10 days, to answer to the charge that liquor was sold on his saloon premises last Tuesday night to a drunken man.

A. K. Ozawa, the local Japanese attorney, appeared before the board of liquor license commissioners this noon and urged the commission to reconsider its recent refusal to grant licenses to T. Usui & Company and Ichiyama & Co. Speaking for them, Ozawa, in the course of his remarks, took up the different protests which have come to the commission against granting licenses to these firms, the principal one being that the location of Usui & Company was too near St. Louis College. Ozawa showed that there are other saloons and liquor houses nearer the school than the site of the proposed new company.

Following Ozawa's remarks, the commission went into executive session to consider the matter of licenses for the Japanese firms, and also to take action on the matter of Clifford Kimball's application.

## LOUISIANA MEN START FIGHT TO PROTECT SUGAR

Delegation Goes to Washington to Secure Postponement of Date for Duty Reduction

WOULD MAKE CHANGE FROM MARCH 1 TO JULY 1, 1914

Cane-growers of Southern State Say They Stand to Lose \$20,000,000

By C. S. ALBERT.

(Special Star-Bulletin Correspondence) WASHINGTON, Oct. 23.—An extension of the effective date when reduced duties on refined sugar shall become operative has loomed up as a burning issue here. It is sought now to obtain a deferment from March 1 until July 1, 1914. Much encouragement is being given that such a desirable result may be accomplished.

Former Senator Murphy J. Foster, with a delegation of prominent citizens from Louisiana, including former Senator N. C. Blanchard, came here and took up the work of securing postponement. Both Mr. Foster and Mr. Blanchard have floor privileges, being able to walk right in and discuss the situation with statesmen at both ends of the Capitol. They did not lose a minute's time in beginning work. For several days they have been continuously on the job and appear to be fairly well satisfied with the progress being made. Twenty Millions Involved.

The idea of the extension is to give the cane growers of Louisiana an opportunity to sell all this year's crop at the old prices and not permit the sugar trust to receive the benefit of the proposed reduction under the new tariff act. It is figured that the planters of Louisiana stand to lose more than \$20,000,000 unless the postponement is granted. This would go directly to the sugar trust, that concern being enabled to feed its refineries on raw material from Cuba until after March 1. The trust would not need to purchase a pound of Louisiana sugar except at the lower price.

It is said that many senators and representatives look with favor upon the strong arguments made by Messrs. Foster, Blanchard and their associates.

All of these connected with the pending movement predict that they will be able to obtain the adoption of a joint resolution postponing the effective sugar date until July 1.

None of the leaders in Congress have expressed opinions as to what the outcome of the present crusade will be. They insist on being given time in which to study the question.

## SWIMMERS FROM HONOLULU TOOK EASY VICTORY

Detailed News of Portola Races Show How Local Lads Out-classed Coast Racers

Latest information received this afternoon is to the effect that the winners of the swimming events at the San Francisco Portola Festival will not sail from the Bay City until tomorrow, arriving here next Monday. It is at that time that the members of the Honolulu A. C. club will be expected to be among those present and give the boys the homecoming welcome that they deserve.

Detailed news of the victory of Honolulu swimmers in the big Portola races at San Francisco on the evening of Friday, June 24, arrived here today by the steamer Korea. The Korea also brought two Honolulu boys who went to San Francisco with the local team, Watson Ballentine and Willie Crawford. Both comment on the ease with which the local swimmers won victories, and on Duke Kahanamoku's wonderful showing. Though not pressed, he made some splendid time, coming close to his own world's records. George Cunha of the Healanis also made a good showing.

The San Francisco Chronicle publishes the following account:

HOW TEAMS FINISHED.  
Hui Nalu, Honolulu.....31  
Y. M. C. A., San Francisco.....17  
University of California.....14  
Olympic Club.....11  
Healanis Club of Honolulu.....9  
Los Angeles Athletic Club.....5  
Berkeley High School.....3  
The Hui Nalu of Honolulu took the honors of the Portola swimming championship last night at the Sutro Baths, with a total of 31 points, with the nearest competitor, the San Francisco Young Men's Christian Association.

## Tammany Fights Hard For New York Victory

Candidates for mayoralty of New York, all of whom are confident of victory. Upper picture—To left, John Purroy Mitchel, Fusion; to right, Charles E. Russell, Socialist; Below, Adolph L. Kline, incumbent, and Edward E. McCall, choice of Tammany Hall.

NEW YORK, N. Y., Nov. 4.—With each side predicting victory and mass meetings and processions held all over the city, the New York city mayoralty campaign closes tonight.

Democrats allied with Tammany Hall are making desperate efforts to elect Edward E. McCall, the Tammany candidate, who is backed by "Boss" Murphy as well as by a number of strong business organizations which claim that John Purroy Mitchel, the Fusion candidate, is a single-taxer and that his views are economically unsound. Mitchel has the support of a large number of Republicans who follow the lead of District Attorney Charles S. Whitman in his fight against police graft. The thousands of voters who supported Mayor William J. Gaynor have split between the two present candidates, since the mayor's death, it is believed.

The Republicans expect to capture the assembly in the general elections which also take place tomorrow.

## ED J. LORD WILL MANAGE WORK ON HILO BREAKWATER

Well-Known Local Contractor Closes Negotiations with Philadelphia Company

Ed. J. Lord, president of the Lord-Young Engineering Company, returned from a vacation and business trip to the mainland today with the news that he himself has been named to manage the completion of its Hilo contract by the Breakwater Company, of Philadelphia. The Lord-Young company will not directly participate in the finishing of the big breakwater job.

A cablegram from Lord some week ago indicated that the Philadelphia concern had closed with the Lord-Young company for the completion of its contract, which, owing to various upsets and changes in management, has been a white elephant on the hands of the mainlanders. Lord said this morning that at the time his cablegram was sent, it was understood that his company would handle the job but that this plan was not finally consummated, and instead, the Philadelphia company asked him to take over the work as the local manager, on a salary basis. He expects to leave for Hilo shortly to start the work moving.

Lord was ill during part of his absence from the territory but returns in fine health. He visited Washington, New York and Philadelphia while away, meeting a number of well known people from Hawaii.

On arrival this morning he learned the good news that the Lord-Young company was today awarded the contract by the Washington authorities for the construction of one set of double quarters for the marine barracks at Pearl Harbor, the contract price being \$19,000. This adds to the large amount of military construction work won by this firm. James L. Young, treasurer and manager, received notification of the award by cable this morning.

Under the auspices of the Y. M. C. A. religious services were held at Oahu prison yesterday morning. Prof. W. P. Ferguson, principal of Mills School, gave a brief address and music was furnished by the prison quartet.

## ROBERT ASKEW BADLY HURT IN ACCIDENT

Youth Rendered Unconscious When Knocked from Bicycle Late Friday Afternoon

That he was struck from the rear by a rapidly moving vehicle and thrown violently to the ground while riding a bicycle down the Paoli road toward town, shortly after 3:30 o'clock Friday afternoon, was the statement made to the Queen's hospital authorities this morning by Robert E. Askew, 22 years old, and son of Mr. and Mrs. A. E. Askew, who is now confined to the institution in a serious condition as a result of the accident. The facts that he was struck and thrown from his bicycle are all the details that Askew remembers, as he was rendered unconscious by the fall, remaining in that condition for several hours after being taken to the hospital. The police have begun no investigation of the accident as yet.

According to Askew, he was riding slowly toward town on the right side of the road. Without warning of any kind, his bicycle was struck from the rear and he was thrown from the machine, the force of his striking the ground causing him to lose consciousness. Askew was found lying by the side of the road by Vernon Tenny and Fred Wichman, who were driving in an automobile a little distance beyond the Country Club at about four o'clock. He was lying on his back with his cap over his face and his partly mangled bicycle near him. One of the passengers in Tenny's machine recognized Askew. The latter was placed in the automobile and driven with all speed to the Queen's hospital, where he was found to be severely bruised and cut about the head and shoulders. He was given treatment and although he regained consciousness some time after, seemed to be entirely ignorant of what had happened until this morning, when he told the attending physician that he remembered being struck from behind by a rapidly moving vehicle.

Friday evening the boy's parents became anxious as to his whereabouts and commenced a search for him, and as he was a familiar figure in local aquatic circles, made the rounds of

## WAR DEPARTMENT READY TO MOBILIZE 500,000 MEN ON MEXICAN BORDER NOW

Announcement Made in Washington That Uncle Sam Is Prepared for Any Contingency—News Received Privately in Honolulu Tells of Troops Being Rushed to Front from Various Parts of Country—If Half Million Men Are Mobilized, Must Be by Volunteers Through Act of Congress

[Associated Press Cable]

WASHINGTON, D. C., Nov. 3.—The war department announced today that it has completed plans to mobilize half a million soldiers on the Mexican frontier instantly in case war should be declared between the United States and Mexico. From the administration comes the repetition of the statement that armed intervention in Mexico is not yet justified.

The Star-Bulletin is authorized by Gen. Frederick Funston, commanding the Department of Hawaii, to say:

"At the present time, it would be impossible for the United States to put half a million men immediately in the field. Stretching a point, it might be possible for organized militia to furnish 100,000 soldiers. With out drawing from the coast artillery, we could put approximately 22 regiments of infantry, 13 regiments of cavalry and four regiments of field artillery in the field.

"This does not include the garrisons of Oahu, the Philippines, Alaska and China. The coast defenses might give another 10,000.

"This appears to be all the troops that could be called on without an act of Congress."

## INFANTRY REGIMENTS ORDERED TO THE MEXICAN BORDER

The local military organization was today keyed to a high pitch of interest by the cable information from the war department that four regiments of regular infantry had been ordered to the Mexican border on the rush. Word to this effect was received by Brigadier-General Funston, commanding the Hawaiian department, this morning, and was transmitted to the several army posts as soon as possible. The news of strong mobilization on the border means probably direct promotion to higher commissions in the volunteers, to a number of officers on Oahu, who have had service behind them.

Cable advices received here are to the effect that the 5th, 6th, 13th and 17th regiments of infantry are to proceed to the Mexican border instantly. In the order named, the regiments are stationed at Scottsburg, Harpers, Va., San Francisco, Monterey, Cal., and Fort McPherson, Ga.

## Street-Car Strikes Rack Indianapolis; One Killed

[Associated Press Cable]

INDIANAPOLIS, Ind., Nov. 3.—The street railway strike has not yet been broken and the cars, tied up at noon last Friday, are still unable to resume running.

The strikers have control of the situation so far as blocking the wheels to move cars is concerned. Great excitement has been caused by strikers breaking, who, in attempting to fire a volley over the heads of a crowd, killed one striker. There is much rioting, mostly in the business section of the city. The strikers patrol all the lines and no cars are allowed to start work.

## New York Police Shot At Steers and Hit Pedestrian

[Associated Press Cable]

NEW YORK, N. Y., Nov. 3.—In an effort by the police to check steers which escaped from the yards and ran amuck on the streets, two pedestrians were wounded when revolvers were drawn and used. Most of the steers were killed.

## Rich Chicago Packer Dies

[Associated Press Cable]

CHICAGO, Ill., Nov. 3.—Edward Morris, president and treasurer of Morris & Co., the big packing house firm, and director in many large businesses, died today. He suffered from nervous breakdown. His fortune is estimated at from \$30,000,000 to \$50,000,000.

## San Quentin Warden To Quit

SAN FRANCISCO, Cal., Nov. 3.—John Hoyle, warden of the San Quentin penitentiary, will resign shortly as a result of friction on the board of prison directors.

## MORE GRAFTERS OF HAWAII COUNTY ARE NOW INDICTED

[Special Star-Bulletin Wireless]

HILO, Nov. 3.—Released from the secret file today, indictments on several counts have been found against men prominent in Hawaii county politics and official administration. Two overseers and one former supervisor are included in the names of those who have been run to earth as grafters by the Hawaii probe commission. Sentence has already been passed on one and two have pleaded guilty.

William E. Wright, road overseer for South Kona for 1911-12, was indicted for forgery, three counts being found against him. He pleaded guilty and will be sentenced Saturday.

Road Overseer Kauhana of North Kona, whose term was also during 1911-12, was indicted on no less than 12 counts for various grafts and pleaded guilty. He has been sentenced to not less than five years nor more than eighteen years in prison and fined in the sum of \$300.

Three indictments were returned against Former Supervisor J. Kammer, who represented the North and South Kona districts. He is indicted for conspiracy.

Representative Norman Lyman, against whom charges have been pending in connection with road contracts, appeared before the grand jury at Hilo today and was examined. He appeared at his own request.

## DATA NOW SOUGHT REGARDING THE NUUANU RESERVOIR

Gloom still pervades the water works department. The Nuuanu reservoir is proving an almost useless appendage to the department's water supply, all Honolulu save that small portion above the 300 feet level is supplied entirely by the pumps and it is feared the artesian level in the wells is rapidly diminishing.

The facts concerning the last mentioned situation are to be ascertained shortly as Thomas F. Sedgewick, the department's statistician and chemist, started out on a tour of the island this morning to make a survey of the

wells and supplies available for public consumption. Though Honolulu has been drenched by a generous downpour within the last day or two the reservoirs up Nuuanu valley have benefited little. The bottom of the big dam, from the appearance of a slough in the land, with the wind shifting into the east, again, little prospect of heavy rains, particularly on the higher levels, is held.

## SUGAR

SAN FRANCISCO, Nov. 3.—Sugar 96 degree test, 3.575 cents. Previous quotation, 3.54 cents. Beans, analysis, 96 5/64. Parity, 3.80 cents this morning to make a survey of the
